

Class Information

Move it or Lose it

Tuesday Morning 10am

Some feed back from participants

“This class is exactly what I need”

“I feel so together and balanced after this class”

This unique class was developed by qualified Yoga and Dance Teacher Regan Gardner and is aimed at creating better co-ordination and balance. This is a movement class, not strictly a dance class and combines movements from many disciplines that mesh together. The out come is better co-ordination and balance to help the brain body connection resulting in better function, memory and less possibility of a fall and the injuries that could result from this.

So as the saying goes “Move it or lose it”

Dancing is one of the BEST forms of exercise for the body and the brain.

As we age we also suffer a decline in mental and physical fitness. People who routinely do physical exercise can reverse the signs of aging in the brain, and dancing has been found to be the most effective form. Not only that, it helps reduce stress and promotes a happy state. Reducing Stress is also an excellent way to slow the aging process.

Belly Dance in particular is very adaptable to any age or fitness level, so share this news with your friends, invite them to a class and share the secret to a healthier brain and body!

Yoga All Levels

This class incorporates movements to increase strength, flexibility and body awareness, reduce stress and tension in the Yoga Hatha tradition. These classes are nurturing in nature and suitable for all levels.

Term 2 EVENTS
